

CREATING IBM CLOUD SERVICE

Date	10 NOVEMBER 2022
Team ID	PNT2022TMID23542
Project Name	GAS LEAKAGE MONITORING AND ALERTING SYSTEM FOR INDUSTRIES

The screenshot displays the IBM Cloud Dashboard interface. At the top, the browser address bar shows the URL <https://cloud.ibm.com>. The dashboard header includes the IBM Cloud logo, a search bar, and navigation links for 'Catalog', 'Manage', and the user's account 'Nagarajan Selvaraj's Ac...'. A 'Create resource' button is prominently displayed in the top right corner.

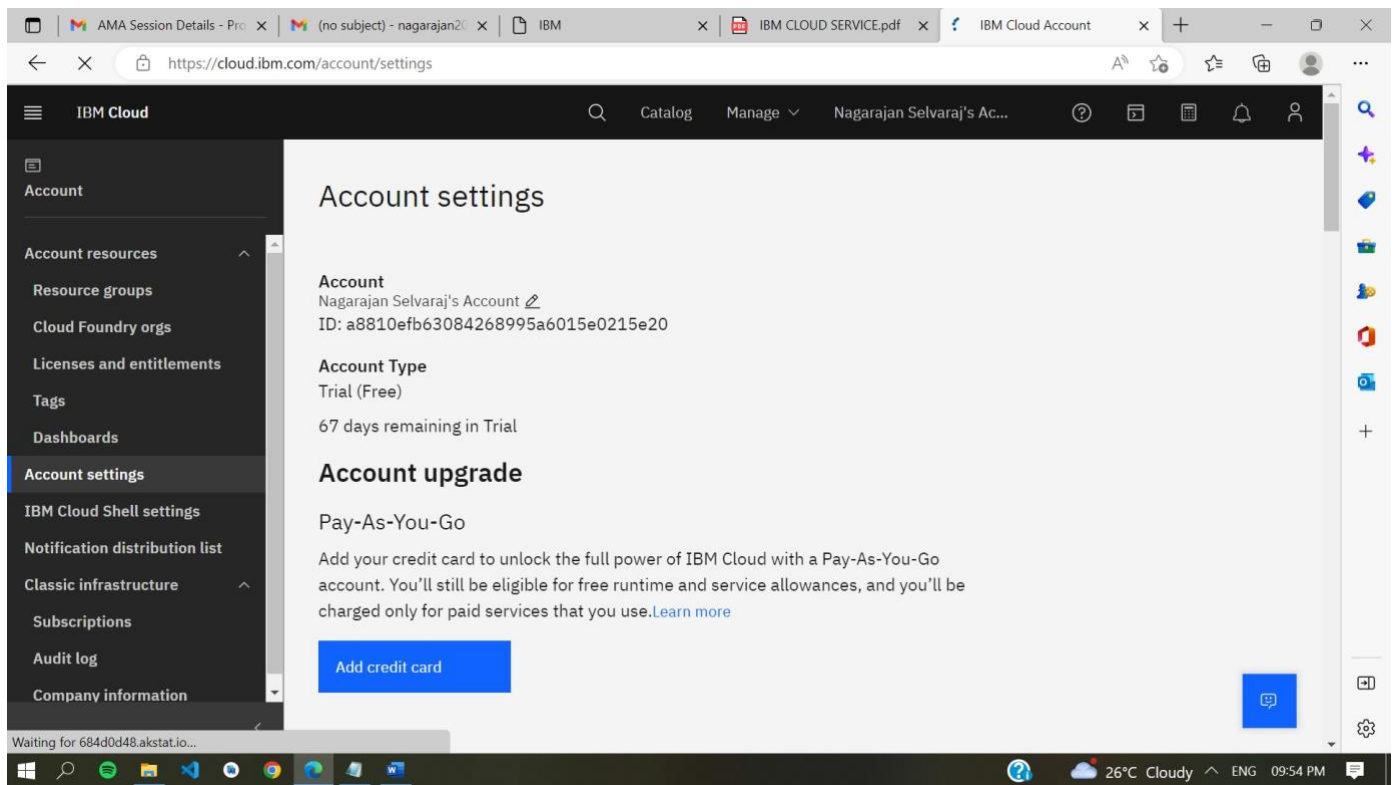

The main content area is titled 'Dashboard' and features a 'For you' section with five recommended actions, each with a 'Getting started' button and a time estimate:

- Build**: Explore IBM Cloud with this selection of easy starter tutorials and services. (5 min)
- Monitor your resources**: Get visibility into the performance and health of your resources. (5 min)
- Explore IBM Analytics Engine**: Develop and deploy analytics applications using open source Apache Spark and Apache Hadoop. (10 min)
- Create and deploy an application**: Browse our starter kits, and then select one to jump start the process to create and deploy your app. (5 min)
- Create a Kubernetes cluster**: Automate deployment; manage your container apps in a native Kubernetes experience. (5 min)

Below the 'For you' section, there are three horizontal panels:

- User access**: Includes a 'Manage users' link and a prompt to 'Enter email addresses below to jump directly into'.
- News**: Features a 'View all' link and a highlighted article 'IBM Tech Now: October 24, 2022'.
- Planned maintenance**: Includes a 'View all' link.

The bottom of the dashboard shows a Windows taskbar with various application icons and a system tray displaying the date and time as '26°C Cloudy' and '09:51 PM'.

An IBM Cloud Service created Successfully .
